OPS(EADRCC)(2025)0176

REQUEST FOR INTERNATIONAL ASSISTANCE TO NATO EADRCC

Support to the Armed Forces of Ukraine (Support Forces Command)

Date	:	22 October 2025, 11:50 UTC
From:	:	The Armed Forces of Ukraine (Support Forces Command)
To	:	Points of Contact for International Disaster Response in NATO Allies and partner countries Euro-Atlantic Disaster Response Coordination Centre

Request

The Armed Forces of Ukraine (Support Forces Command) have submitted the following request for international assistance via NATO to address the **consequences of the Russia's full-scale aggression** against Ukraine.

In line with its obligations, the Euro-Atlantic Disaster Response Coordination Centre (EADRCC) is sharing this request with the Points of Contact for International Disaster Response in NATO Allies and partner countries. Nations in a position to respond to this request, in full or in part, are invited to reply to the Operational Point of Contact of Support Forces Command listed below, with copy to the EADRCC.

The EADRCC is the point of contact at NATO for all follow-up related to this request. It can help coordinate offers and the delivery of assistance.

General Situation

Russia's aggression against Ukraine has severely impacted the civilian population of Ukraine and significantly damaged housing, water and electricity supply, heating, and public infrastructure. The request seeks assistance in enhancing capabilities for humanitarian support, including the provision of water, food, and fuel supplies.

Description of assistance required:

Food storage equipment truck (trailer) is crucial for transporting and storing food. These items ensure that food meets safety and hygiene standards to prevent contamination and maintain optimal conditions from the point of origin to delivery.
A water tanker truck (trailer) is essential asset for transporting large volumes of water to locations with a damaged or not functional water supply system, and for distributing that water for various purposes, including humanitarian relief efforts.
Fuel truck (fuel tanker truck, fuel tanker trailer) is a vital tool for delivering fuel to remote or hard-to-reach locations that conventional transport cannot access due to damaged infrastructure. These trucks are crucial for ensuring fuel supplies for rescue and utility services, as well as for maintaining the stable operation of essential services, such as water treatment plants, communication hubs, and transportation centers.

The Armed Forces of Ukraine (Support Forces Command) is making a request for international assistance to secure the following items:

Item Nr.	List of needed items	Quantity	Picture (if needed)
1	Water tanker truck (with pump and hoses) with a capacity 4-20 m3 (used is acceptable, but it should be in working condition). Emission standards: EURO 2 or higher	520	
2	Water Tank trailer with a capacity 5-10 m3 (used is acceptable, but it should be in working condition).	1100	
3	Isothermal food storage truck with a capacity 2-20 tons (used is acceptable, but it should be in working condition). Emission standards: EURO 2 or higher.	600	
4	Trailer food storage with a capacity 1,5-20 tons (used is acceptable, but it should be in working condition).	1500	
5	Fuel truck (with fuel pump, fuel meter, hoses, filter) with a capacity 6-12 m3 (used is acceptable, but it should be in working condition). Emission standards: EURO 2 or higher.	2448	
6	Tractor unit and fuel tanker trailer (with fuel pump, fuel meter, hoses, filter) with a capacity from 18 m3 and above (used is acceptable, but it should be in working condition). Emission standards: EURO 2 or higher.	568	

Point of Entry: to be determined jointly between donor and The Armed Forces of Ukraine (Support Forces Command)

Delivery point: to be determined jointly between donor and The Armed Forces of Ukraine (Support Forces Command)
