NATO CONFIDENTIAL

Dear Colleague:

In the course of the last meeting of Sub-group 3 of the Future Tasks of the Alliance Study, the Rapporteur extended an invitation to the national and International Staff representatives on the Sub-group to meet in Washington in early October for discussion of the draft paper to be distributed by the Rapporteur in September.

It would be helpful in planning for the meeting to know if a meeting in Washington during the first two weeks in October would present difficulties for your representative. Accordingly, I would appreciate receiving the views of your representative as soon as convenient.

Sincerely yours,

*Stephen T. Johnson*
