Subject: FINAL TEXT OF REPORT ON "FUTURE TASKS OF THE ALLIANCE"

The corrections I list below are needed and are uncontroversial; they are meant to deal with slips in the text as it emerged from Council, and which it is surely unnecessary to carry over for all time.

Paragraph 7, second sentence: after the semi-colon, this sentence (which at present is very bad) should read:

"each Ally can decide its policy in the light of close knowledge of the problems and objectives of the others".

Paragraph 10, first sentence: delete "now" (since the sentence begins "currently").

Paragraph 10, second sentence: delete the comma after "nature".

Paragraph 14, second sentence: instead of "current" read "present" (since the word current comes up later in the sentence).
