Transformation *in & through* action

Exhibition

Arena Riga

26 ▶ 30 November 2006

9:00 - 18:00

1

Stand 1 Civil Emergency Planning

Protecting civilian populations
and supporting NATO operations

2

Stand 2 Soldier Systems

Equipping infantry
soldiers to face
new threats

3

Stand 3 Special Operations Forces

A strategic
enabler

4

Stand 4 NATO's role in defence against terrorism

- **Programme of Work for Defence Against Terrorism:**
Developing new, cutting-edge technologies to protect troops and civilians against terrorist attacks.
- **NATO Counter-terrorism Technology Development Programme:**
Rapidly identifying innovative, technological solutions to the Alliance's most pressing counter-terrorism technology challenges.

5

Stand 5

Chemical, biological, radiological and nuclear defence

Enhancing the Alliance's defence capabilities against weapons of mass destruction

6

Stand 6

Latvia's contribution to ISAF

Helping secure Afghanistan's future

7

Stand 7

Allied Command Operations

NATO's global reach

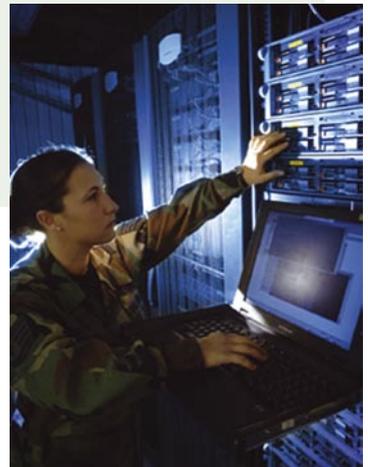

ACO's missions and capabilities include:

- NATO's relief efforts in Pakistan
- International Security Assistance Force in Afghanistan
- NATO Response Force
- NATO Communication and Information Systems Services Agency

The mission of ACO and the SACEUR is to contribute to preserving the peace, security and territorial integrity of NATO member nations in their area of responsibility.

8

Stand 8 Active Layered Theatre Ballistic Missile Defence Programme

Protecting NATO's forces from
ballistic missile threats

9

Stand 9 Alliance Ground Surveillance

Observing the ground from the sky

10

Stand 10 Allied Command Transformation

NATO's engine of change

Achieving the Alliance's transformational goals through:

Support to current operations and NRF

- Identifying and confronting current and future threats
- Ensuring force interoperability
- Employing the NRF as a "vehicle for transformation"

Preparation of forces

- Educating and training NATO operating forces at all levels to common standards

NATO lessons learned

- Turning operational experience into capabilities, education and training
- Applying experience to future operations

Defence planning

- Identifying and closing capability gaps
- Guiding the transformation of Alliance military capabilities

Development of capabilities

- Developing concepts in support of current and future operations
- Providing tools that are interoperable, deployable, sustainable
