

NATO - Summit Meetings
PRAGUE – CZECH REPUBLIC
 21.11.-22.11.2002

HOTEL BOOKING INFORMATION

The Czech Authorities have entrusted AIMS International Congress Services with the accommodation arrangements for the Summit meetings in Prague. Accordingly, the media and press representatives **may make their hotel reservations** via AIMS International.

Prague is an extremely popular tourist and convention destination, and hotel rooms are at a premium all year round. Consequently, AIMS International has been obliged to make tentative block room reservations already at this stage of the preparations. A number of suitable hotels have been identified and rates have already been negotiated, and will remain valid during the 2002 event. Hotels have been divided into five categories based on the quality of offered services and evaluation of these hotels. A number of hotels may reflect changes closer to the meeting dates.

The media and press representatives are invited to inform AIMS International of their requirements by completing Hotel Registration Form.

In view of the great demand for hotels in Prague during the period of the Summit meetings, Czech authorities stress the fact that early reservations are imperative. The Czech Task Force via AIMS International does not guarantee to fulfill Media and Press requests concerning hotel reservations after the established deadlines for reservations.
