1. Situation update:

1.1 Casualties are estimated to be more than 47.000 dead and estimated 3 million people homeless. 1 million survivors are in acute need, many of them seriously injured. Officials have estimated that more than 50.000 people are still missing. 26 hospitals and 600 health clinics in the affected areas have been destroyed. Restoration of the access roads is continuing, but will take weeks. Relief efforts in the affected area covering more than 28.000 square kilometres are severely constrained by the lack of helicopters.

1.2 Following a formal request for disaster assistance from Pakistan on 10 October 2005, NATO North Atlantic Council (NAC) on 11 October 2005 approved a strategic air bridge for transportation of urgently required relief assets from EAPC nations to Pakistan. Senior Civil Emergency Planning Committee (SCEPC) in EAPC format endorsed the EADRCC involvement in the support to Pakistan. On 18 October 05 NAC authorised a sea bridge to move less urgent, heavier and/or bulkier items of nationally offered aid to Pakistan from Europe, if sufficient donations are pledged via the EADRCC.

1.3 The Pakistan authorities have an urgent requirement for helicopters, winterised tents (250.000-450.000), blankets/sleeping bags (est. 2 million), water and sanitation (especially latrines), water bladders for affected hospitals, generators, tarpaulins, ground sheets, stoves, kitchen sets, surgery assistance and trauma recovery. Other international assistance required includes tetanus medicine (at least 100.000 doses) and food. Pakistan

NON - CLASSIFIED

has asked for additional international assistance with paramedics and hospital technicians and fully equipped, self sufficient, medical trauma teams as well as medicine.

1.4 As of 19 October 2005, 36 EAPC nations have offered assistance to Pakistan on a bilateral basis, through NATO / EADRCC, through the EU Civil Protection Mechanism, through UN OCHA or other international organizations. The Pakistan authorities originally requested SAR teams. This request received significant response. Teams from 20 EAPC nations (Azerbaijan, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Italy, Netherlands, Poland, Russia, Spain, Sweden, Switzerland, Turkey, United Kingdom and United States) were deployed to Pakistan. The Pakistani authorities have meanwhile informed that SAR teams are no longer required.

1.5 Up to date three NATO organised or operated relief flights have arrived in Pakistan with urgent required tents, blankets, stoves from Slovenia, Turkey (UNHCR), and a modular base camp from Sweden. Six additional NATO flights are scheduled for today, 20 October 05, with donations from Lithuania, Bulgaria, Denmark, Germany, Czech Republic and relief items of UNHCR from Turkey.

1.6 EAPC nations are invited to utilise this Alliance transportation capability in order to expeditiously move assistance to Pakistan. The nations are requested to inform whether they will put their aid through the NATO-offered movement system.

1.7 SHAPE Allied Movement Coordination Centre (AMCC) has designated Ramstein Airbase (AB), Germany as the European hub for the NATO air-bridge. Nations are requested to transport their accepted donations to AB Ramstein by road for onward movement. The EADRCC is in charge to schedule the arrival of country-donations at Ramstein AB. **No deliveries can take place at Ramstein AB unless the EADRCC has authorised the arrival.**

1.8 Upon arrival of relief goods transported through the NATO air-bridge to Pakistan, donations are formally handed over to Pakistan Authorities or the respective UN agency by the JC Lisbon team in Islamabad.

1.9 Nations willing to use the Alliance transportation capability are kindly asked to provide the following essential planning data by e-mail to the EADRCC:

- a. Nature of the item(s) to be shipped, e.g. tents, pumps, blankets etc
- b. Weight in kilograms
- c. Volume in metric
- d. Dimensions in metric
- e. Type of packaging e.g. bales, rolls, boxes, etc
- f. Whether palletised or not. If palletised, specify the type of pallet(s) e.g. Europallets or...etc
- g. If dangerous good e.g. HAZMAT etc
- h. Where (location) available for pick up and when (specify the Date/Time/Group i.e. DTG) in GMT
- i. Is the shipper willing to move the items to be shipped to the designated point of loading?

- j. Specify any other special instructions
- k. Specify a telephone of Point of Contact (POC), and if possible an alternative POC and the name of the person completing this questionnaire.

NOTE: It is important that each one of the 11 lines of the above questionnaire be completed. Please indicate NO if the answer is negative.

1.10 Nations are also invited to contribute airlift capability to NATO in order to expedite transportation of disaster relief from EAPC nations to Pakistan.
