E. OPS(CEP) SITREP 2 – 29 April 2010

This fax consists of 4 pages

Situation

1. Due to the situation in the Kyrgyz Republic, the interim government of the Kyrgyz Republic requested that NATO Civil Emergency Planning (CEP) distribute requirements of medicines and medical equipment for use in emergencies to national Points of Contact. This list was issued on 10 April 2010 and updated on 15 April 2010. Today, CEP has received a third request for assistance.

2. In his letter to NATO of 23 April 2010, the Ambassador, Head of the Mission of Kyrgyzstan to NATO stated in part: "Some of our hospitals have already received urgent medical assistance with the help of NATO member states for those who have been wounded. We truly appreciate these kind efforts as this assistance has saved many lives. At the same time, the vast majority of victims received very serious wounds and need to be treated further with intensive care. Given this fact and its urgency, may I request you to consider a possibility to provide to local hospitals in Kyrgyzstan some equipment. To this end, I would like to hereby send you the list of medical equipment for our hospitals."

2.1. The List of Needs of Health Care Organisations Kyrgyz Republic (20 April 2010) is found at pages 1-3 and 1-4.
