**1. Situation update:**

The Government of Pakistan now reports that over 18 million people have been affected by the floods. The death toll stands at 1,667. Over 1.2 million houses have been damaged or destroyed. Floodwaters are receding in many areas, and though there are concerns about standing water that remains in Punjab and other areas, the worst of the current flooding is taking place in Sindh province.

Two areas in Sindh have been affected by major flooding since the last situation report. Floodwaters have entered Gaji Khuhwar, a town of 40,000 people in Warah tehsil, Qamber Shahdadt district. Efforts to divert floodwaters from Warah town are ongoing. New flooding was also reported from Mehar and Khairpur Nathan Shah tehsils in neighbouring Dadu district. Dadu and Johi towns are under threat as floodwaters continue to move southwards through Hamal Lake. Flooding in this area has extended west and south from the Indus since an embankment was breached over two weeks ago, inundating Jacobabad and parts of Jaffarabad and Nasirabad districts in the neighbouring province of Balochistan.

Further south, in Thatta district, almost 1,300 km<sup>2</sup> of land are reported to have been flooded in recent days following a breach near Surjani last week, displacing more than half a million people. An estimated 400,000 people are believed to have moved to higher ground on the outskirts of Makli, near Thatta town, and along the Karachi-Hyderabad highway. Others have moved towards Golarchi in Badin district, to the east of Thatta.

**NON - CLASSIFIED**

Floodwaters are now threatening the towns of Jati and Chohar Jamali, near the coast to the east of the Indus. Parts of the highway between Thatta and Badin has been submerged.

## **2. NATO Support to Flood Relief Effort in Pakistan**

2.1 On 20 August 2010, in response to the request submitted by the Government of the Islamic Republic of Pakistan, the North Atlantic Council agreed that NATO would, with immediate effect, commence flood relief support by means of airlift/sealift operations, in accordance with specific requests from the Pakistan authorities, and in coordination with other stakeholders engaged in the relief operation.

2.2 EAPC nations and Contact countries are invited to contribute to and participate in this NATO Operation.

## **3. Transportation information**

3.1 Nations, International Organisations and NGOs are herewith invited to inform the EADRCC about national / organisational donations that require transportation and that are in accordance with the needs of Pakistan. Transport requirements, together with the information below, should be sent to the EADRCC without any delay:

- Point of contact of the donor;
- Composition of donation; if food is part of the donation we need proof that it is halal food;
- Weight and volume of the donation;
- Location where the donation is stored;
- Date of earliest availability for transport;
- Recipient of the donation;
- Information about hazardous materials that the donation may contain.

4. The EADRCC, in close cooperation with the Allied Movement Coordination Centre (AMCC) SHAPE, is coordinating transportation of assistance. **Till today, five (5) NATO organized flights have delivered 142.6 tons of relief items (details at annex).**

**5. The following requirements for international assistance have been identified:**

5.1 **According to the Government of Pakistan top priority during the relief phase are tents, followed by food (halal) items, including high energy biscuits, baby food and formula milk, medical kits and water purification plants.**

5.2 Please note that the Government of Pakistan has decided not to accept used clothing and toys.
