1. Situation update:

Latest Pakistan government estimates indicate that more than 18.6 million people have been affected by the floods with the number in Sindh continuing to increase. The official death toll has risen slightly to 1,677. The number of houses reported as damaged or destroyed stands at 1.25 million.

In Sindh, floodwaters that broke off from the Indus following the breach of embankment in Kashmore in early August continue to move south into Dadu district, parallel to, but up to 50 km apart from, main course of the river. Provincial authorities say it is now unlikely that the floodwaters can be diverted back into the main river until they reach Manchar Lake, which straddles Dadu and Jamshoro districts. A key priority has been to protect Dadu town, which is now cut off by road from the north.

The situation continues to be desperate in Thatta district, further south. Local media reported that floodwaters had entered Jati town on 3 September. Sujawal town remains submerged. Aid agencies have reported increasing security challenges when delivering assistance.

Floodwater continues to recede in Punjab, but standing water in parts of the province is not expected to drain quickly. Information from Balochistan is still limited, but it is estimated that 700,000 people may have moved into the province from affected areas in northern Sindh, particularly Jacobabad. Some are now moving back to Sindh via boats provided by the Pakistan military and private actors. An additional 400,000 people have

been affected by floods within Balochistan itself. Road access to northern parts of Swat, Kohistan and Shangla is likely to remain cut off for the foreseeable future.

2. NATO Support to Flood Relief Effort in Pakistan

2.1 On 20 August 2010, in response to the request submitted by the Government of the Islamic Republic of Pakistan, the North Atlantic Council agreed that NATO would, with immediate effect, commence flood relief support by means of airlift/sealift operations, in accordance with specific requests from the Pakistan authorities, and in coordination with other stakeholders engaged in the relief operation.

2.2 EAPC nations and Contact countries are invited to contribute to and participate in this NATO Operation.

3. Transportation information

3.1 Nations, International Organisations and NGOs are herewith invited to inform the EADRCC about national / organisational donations that require transportation and that are in accordance with the needs of Pakistan. Transport requirements, together with the information below, should be sent to the EADRCC without any delay:
