**1. In accordance with the procedures at reference, EADRCC has received today, 16 February 2012, a disaster assistance request from National Emergency Operations Centre, Albania. The following information was provided:**

**2. General Situation**

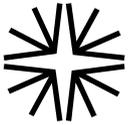

Type of the Disaster : Massive Snowfalls  
Date and Time the Disaster occurred : beginning of 2012  
Location of the Disaster : Northeast and Southeast of Albania

2.1. During last few days Albania has been hit by persistent low temperatures and massive snowfalls. The remote areas of Northeast and Southeast of Albania have experienced some unusual precipitations and nearly half of Albania is under snow. These weather conditions were not seen since 1985. Snowstorms and blizzards have had heavy impact on these areas, endangering life of citizens. Many communes have been cut off and could only be reached by aerial means.

2.2. There are heavy winter conditions on many national roads and snow chains must be used in some segments. Other communal, rural and uncategorized roads are partly blocked and emergency snow removal activities are undergoing. Snow removal equipment's, graders, retrofitted trucks or snow blowers are operating. In some areas loading and hauling of the snow needs to be undertaken.

**3. Initial Assessment of the damage.**

**NON - CLASSIFIED**

3.1. Presently 52 communes are isolated (Shkodra Qark - 9, Qark of Kukës – 21, Qark of Dibër – 7, Qark of Lezha – 5, Quark of Berat – 4 and Qark of Elbasan – 6). Many schools in these communes are closed.

3.2. Nearly 100.000 people are affected and nearly 18 thousands cannot reach their administrative centres. This population have not enough stocks of food and medicines. The army aerial unit has deliver aid and food to remote part of Shkodra. There are shortages on cattle's food too.

3.3. Many communes are facing electricity power cuts and many electricity supply poles have been knocked down.

3.4. The Council of Ministers declared a state of emergency in the North-East and East part of Albania.

3.5. According to the weather forecasts for the next days, the situation is expected to deteriorate due to further heavy snowfalls.

#### **4. National resources available for disaster response and measures taken.**

4.1. National, regional and communal emergency headquarters of Civil Emergencies have been set up and have intensified their activity due to harsh weather conditions. Fire and rescue service, emergency medical teams, police and special forces, helicopter units, regional support brigades and army are engaged in rescue, evacuation and other emergency activities.

4.2. An account for financial assistance from donor countries will be opened by the Ministry of Finance.
