# INTRODUCTION

Change in the role of SANDF post 1994 – involvement in peacekeeping missions in Africa

- Specific operational roles demanded new competencies not previously trained for within SANDF
- Shortcomings in skills, training and education acknowledged by SANDF
- Project RESTORE initiated by Training Command in 2003
  - Aim to better prepare SANDF personnel for operational deployments to UN and AU peacekeeping missions
- Responsibility handed to South African National War College in June 2005
- BPST(SA) started to support the project in 2005
- Focus switched from SANDF to Multidimensional Training
