COMKFOR, Major General Erhard Buehler, recently visited the Municipal Preparation Team of Mitrovica North (MPT). This technical team was formed in order to support the establishment of a Municipality of Mitrovica North. Major General Buehler was briefed in detail about a number of projects, both implemented and planned, aiming to improving the daily life of people in Mitrovica North. Following a discussion with members of the MPT, COMKFOR stated that he was impressed by the professionalism and dedication of this group. "It is with initiatives of engaged and intelligent people, young and old, men and women that Mitrovica North moves towards becoming the safe and prosperous place that everybody wants it to be."

He added that by listening to the needs of the people, the MPT was implementing solutions coming from the citizens, not being imposed onto them by others. "It is time to work for a better future for Mitrovica North. This has to be a place where children can grow up safely, businesses flourish and travelers enjoy a visit.

I fully support this team as I support any individual or group that peacefully contributes to an improvement on the ground".
