

Exercise “ZHETYSU 2009”

5-10 September 2009

Report - 10 September 2009

Since 9th September no aftershocks have been observed. With the assistance of the international disaster response teams the Kazakh authorities now have the situation under control.

On all sites affected by the earthquake Search and Rescue activities have now been completed. All casualties have and will continue to receive the necessary medical attention also mobile hospitals deployed by assisting nations, while the majority of those who lost their homes have been provided shelter and food aid.

At mid-day of the 10th September 2009, the Kazakh authorities declare that the emergency situation caused by the earthquake of the 6th September 2009 is now under control. This also marks the end of the successful Disaster Response exercise “Zhetysu 2009”
