

NATO-Ukraine: A Distinctive Partnership

A special relationship between NATO and Ukraine was established in July 1997 with the signing of the Charter on a Distinctive Partnership, which reflects the importance of an independent, stable and democratic Ukraine to Europe as a whole. Regular consultations in the NATO-Ukraine Commission, working groups and seminars have established a network of political and military cooperation in several areas, including defence reform and planning, science and technology, economic issues, civil emergency planning, conflict prevention and peace-support operations. Such cooperation contributes significantly to Euro-Atlantic security and stability, and benefits both NATO and Ukraine.
