

- VHF - RADIO STATION FOR LOCAL COMMUNICATIONS,
- HF - FOR WIDER RANGE COMMUNICATIONS,
- TELEPHONES.

THE IPTF BUILDING CAN BE FOUND IN THE SAME STREET THREE HOUSES WEST FROM THE REPUBLIC OF CROATIA CONSULATE, WITH THE FOLLOWING COMMUNICATIONS:

- TKC LIVNO TELEPHONES
- VHF/UHF COMMUNICATION STATIONS (LOCAL)
- RADIO LINK POSITIONED TOWARDS RADIO-RELAY FACILITY TUSNICA.

ACCORDING TO OPERATION FINDINGS, BUILDINGS NEAR THE IPTF BUILDING ARE NOT GOOD FOR USING IN THIS ACTION BECAUSE THE OWNERS ARE NOT TRUSTWORTHY INDIVIDUALS (THEY WORKED FOR THE FORMER SFRJ INTELLIGENCE SERVICE AND HAVE A TENDENCY FOR CRIME); SO THAT WITH THE NEXT INVESTIGATION, THE MOST OPTIMAL LOCATION FOR PLACING EQUIPMENT FOR COVERING AND LISTENING TO COMMUNICATIONS OVER THE RADIO EQUIPMENT WILL BE VERIFIED.

#### **RECOMMENDED MEASURES AND MTS**

1. IT IS NECESSARY THAT THE CHIEF OF SNS CENTER LIVNO ESTABLISHES CONTACT WITH MR. VERENKO CUBELA, DIRECTOR OF THE TKC LIVNO, TO TAKE OVER THE MEDURASDJELNIKA (DOCEX: NOT SURE OF MEANING, NOT IN DICTIONARY) UNDER OUR SUPERVISION, THROUGH WHOM WE PLAN ON INSTALLING EQUIPMENT TO LISTEN TO THE TELEPHONE LINES OF THE HOTEL DINARA, IPTF LINES AND UNHCR LINES, AND IF NECESSARY OTHER TELEPHONE LINES WITHIN THE CITY OF LIVNO, AFTER CONFIRMING TELEPHONE NUMBERS, BECAUSE THE SAME ARE REGISTERED UNDER PRIVATE CITIZENS NAMES, AND MOST FREQUENTLY UNDER THE OWNERS OF THE BUILDINGS WHERE THE MENTIONED ORGANIZATIONS RESIDE.
2. WITH THE EXISTENCE OF THE MENTIONED RADIO EQUIPMENT UNDER THE CONTROL OF THE INTERNATIONAL FORCES, IT IS NECESSARY TO EXECUTE RADIO SURVEILLANCE OF THE SAME INDIVIDUALS, AND THE SURROUNDING AREAS TO VERIFY THE DIRECTION OF THE RELAYS, AND THE WAYS AND METHODS OF THE WAY THEY WORK WHICH WITH ANALYSIS WE CAN VERIFY THE OPTIMAL COVERAGE AND FOLLOWING OF INTERNATIONAL ORGANIZATIONS THROUGH THE SAME (INDIVIDUALS).
3. ANALYZING AND COMPARING THE TYPE OF EQUIPMENT THAT WE NEED (COMMUNICATIONS EQUIPMENT) AND EQUIPMENT THAT WE CURRENTLY HAVE, WE RECOMMEND THAT WE TAKE THE EQUIPMENT FROM STOLAC OR ACQUIRING NEW EQUIPMENT AND INSTALLING IT IN LIVNO IN THE OFFICES OF THE SNS CENTER LIVNO (IN THE MUP BUILDING) WITH WHICH THE WHOLE AREA OF LIVNO'S RADIO TRAFFIC CAN BE COVERED.  
CONCERNING TECHNICAL EQUIPMENT FOR COVERING INTERESTING TELEPHONES LINES, AMOUNT IS INSUFFICIENT, AND ARE WORKING ON FINDING A SOLUTION FOR ACQUIRING THE EQUIPMENT.  
A COMPLETE LIST OF NECESSARY EQUIPMENT WILL BE DELIVERS AFTER DETAILED ANALYSIS OF THE USABILITY OF THE AVAILABLE EQUIPMENT, ALSO A DETAILED INVESTIGATION IN THE FIELD, WHICH NEEDS TO BE DONE, ACCORDING TO PLAN, BY 29 SEP 99 (WEDNESDAY).
