OPS(EADRCC)(2026)0045

REQUEST FOR INTERNATIONAL ASSISTANCE TO NATO EADRCC

Support to Ukraine

Date	:	11 August 2026
From:	:	The State Emergency Service of Ukraine
To	:	Points of Contact for International Disaster Response in NATO Allies and partner countries Euro-Atlantic Disaster Response Coordination Centre

Request

The State Emergency Service of Ukraine (SESU) has submitted the following request to NATO for international assistance to address the consequences of Russia's invasion affecting the civilian population of Ukraine, in particular, assistance in enhancing **capabilities for humanitarian demining and transportation of explosive ordnance**.

In accordance with its obligations, the Euro-Atlantic Disaster Response Coordination Centre (EADRCC) forwards this request to the points of contact for international disaster response in NATO Allied and partner countries. Nations that are able to provide assistance, in full or in part, are invited to respond to the Operational Point of Contact in Ukraine (listed below), with a copy to the EADRCC.

The EADRCC is the point of contact at NATO for all follow-up related to this request. It can help coordinate offers and the delivery of assistance.

General Situation

As a result of the armed aggression of the Russian federation, the territory of Ukraine has been significantly contaminated with explosive ordnance, posing a serious threat to the civilian population and critical infrastructure. The large-scale shelling and destruction require prompt response and the implementation of comprehensive humanitarian demining measures. Demining and humanitarian demining of the territory of Ukraine is one of the strategic priorities of the Government of Ukraine and is crucial for the country’s recovery, strengthening the capabilities of Ukraine’s Security and Defence Forces, and ensuring the safety of Ukrainian citizens.

To ensure public safety, address the aftermath of emergencies, and neutralize (destroy) explosive ordnance, the State Emergency Service of Ukraine (SESU) urgently requires the specialized pyrotechnic equipment listed below.

This equipment will be utilized by SESU’s territorial units across various regions of Ukraine, particularly those subjected to the most intense attacks by Russia.

The Euro-Atlantic Disaster Response Coordination Centre can be reached in the following ways:
