### **1. Situation update**

1.1 As of 08h00 on 2 November, according to the information from the Ukrainian Ministry of Health, the number of people suffering from influenza and acute respiratory infections reached 191,431. Amongst them, 7524 people have been treated in the hospitals and 63 people died.

### **2. Actions taken by the Government of Ukraine**

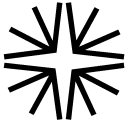

2.1 The National Plan against pandemic influenza was initiated.

2.2 The national authorities take necessary measures to prevent the H1N1 influenza from spreading. People are recommended to stay at their homes and to refrain from travelling. Information about the ways of prevention and the features of the H1N1 influenza have been provided to the population by television, radio, and printed media.

2.3 On 30 October, a quarantine regime has been imposed on 9 regions, which is staying in force at this point in time.

2.4 Operational Groups (24/7 duty) have been formed in the Ministries of Foreign Affairs, Health, and Emergencies in order to coordinate national activities and to facilitate the process of receiving international humanitarian assistance.

**NON - CLASSIFIED**

2.5 The Ukrainian Armed Forces have increased the level of readiness of mobile military hospitals.

2.6 The Ministry of Emergency has increased the level of readiness of the mobile hospital of MOE and formed 536 special teams to assist the Ministry of Health in disinfection efforts. 651 mobile generators are ready to use, and 479 vehicles have been assigned to medical personnel in order to provide assistance to those living in areas with limited access.
