

Defence Education Enhancement Programme was launched in 2013

The Programme supports re-structuring of the Ukrainian professional military-education (PME) system and reorientation to a western approach and ensuring that PME system is capable of delivering to officers and NCOs new educational and professional competencies for interoperability with NATO.

DEEP assists the Ukrainian PME and training institutions within five lines of development - education and training (main effort), doctrine, personnel, organization, and materiel (supporting effort)
