NSPA owns a wide spectrum of capabilities to rapidly respond to emerging crisis. Its Southern Operational Centre (SOC), co-located in Taranto (Italy) and Capellen (Luxembourg), has become the centre of expertise for deployable camps.

Expert in the full life cycle management of deployment of infrastructures, the SOC has consolidated its ability to rapidly deploy assets, contributing to the readiness of the nations of the Alliance during exercises and operations.

Through SOC services, NSPA can offer to NATO nations and partners:

- Operational Support
- Contracted & Follow-on Support
- Warehouse Logistics & Maintenance

**NATO Support and Procurement Agency (NSPA)**

NSPA brings together, in a single organization, acquisition, logistic, medical and infrastructural capabilities, operational and systems support and services to the NATO nations, NATO Military Authorities and partner nations.

Since its establishment in 1958, NSPA acquires, operates, and maintains everything through an unbiased link between industry and the nations: from weapon systems to fuel delivery, port services, airfield logistics, medical and catering services or base support services for troops stationed across the world.

The Agency enables the consolidation and centralisation of logistics management functions, providing full range support and allowing its customers to achieve economies of scale.

NSPA is a customer-funded agency, operating on a "no profit - no loss" basis. The Agency, headquartered in Luxembourg, with main operational centres in France, Hungary and Italy, employs around 1,550 staff and oversees over 2,500 contractors in NATO’s missions across the world.
