

NATO's Enhanced Forward Presence

NATO has enhanced its presence in the eastern part of the Alliance, with four multinational battlegroups in Estonia, Latvia, Lithuania and Poland. These battlegroups, led by the United Kingdom, Canada, Germany and the United States respectively, are multinational, and combat-ready, demonstrating the strength of the transatlantic bond. Their presence makes clear that an attack on one Ally will be considered an attack on the whole Alliance. NATO's battlegroups form part of the biggest reinforcement of NATO's collective defence in a generation.

The table below illustrates national contributions to the four battlegroups. The personnel and force numbers are based on information provided by contributing nations and may include forces deployed in a support role. Numbers should be taken as indicative as they change regularly, in accordance with the deployment procedures of the contributing nations.
