FACT SHEET

**Equipping and Sustaining the Afghan National Army (ANA)
NATO-ANA Trust Fund - April 2010**

Created in 2007, the NATO-ANA Trust Fund provides a mechanism for ISAF nations to support the following activities:

- transportation and installation costs for equipment donations by ISAF nations to the ANA;
- purchase of ANA equipment and services for engineering infrastructure projects;
- in-and out-of-country training.

In March 2009 the scope of the ANA Trust Fund was expanded to support the long-term sustainment of the ANA.

The sustainment part of the ANA Trust Fund is estimated to require annual financial support of 1.8 billion USD for 134,000-strong ANA. The sustainment requirement for 171,600 ANA force structure that was approved by JCMB in January 2010 is under analysis. The Fund will help pay for salaries and other costs, complementing separate support from the United States, which concentrates on initial build-up of the force (ammunition, uniforms, training, as well as the construction and maintenance of security infrastructures). The US-led efforts totalled 7 billion USD in 2009.
