This report consists of : - 7 - pages

**1.** In accordance with the procedures at reference, NATO has received on 05 February 2015, a disaster assistance request from Albania (AL).

The following information has been provided:

**2.** General Situation

Type of the Disaster : Snowfall and heavy rainfalls causing floods  
Date and Time the Disaster occurred : 31 January 2015  
Location of the Disaster : North and South parts of Albania

**3.** Assessment of the situation:

**3.1.** Due to heavy rainfalls that started on the 31<sup>st</sup> of January 2015, the water level of large rivers has increased and caused floods in several parts of Albania.

**NON - CLASSIFIED**

**3.2.** According to the information provided by General Directorate for Civil Emergencies - Ministry of Internal Affairs of Albania, the situation is improving, since the water level of Vjosa River, Drino River, Osumi River, Gjanica River continues to decreasing.

**3.3.** Unfortunately, there has also been one casualty due to the flooding.

**3.4. Approximately 1543 ha are flooded. People who were affected by the floods are returning to their homes.**

**3.5.** Several cases of road damages have been reported and there are traffic restrictions due to the small and medium scale landslides.

**3.6.** The situation in the flooded areas is foreseen to further improve in the coming days.

#### **4. National resources involved in disaster response.**

**4.1.** Relevant state institutions and operational forces (military forces, police forces, fire-fighter personal, Albania Red Cross, Emergencies voluntary forces) have been activated in consequence management operations.

**4.2.** Many non-government organizations (NGOs) are providing assistance by delivering supplies to the affected families.

**4.3. Assessment commissions from the regional councils are evaluating of the damages.**

#### **5. International Assistance.**

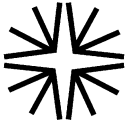

##### **5.1. Assistance offered by Allies and Partners:**
