OPS(EADRCC)(2016)0062

5.1. On 21 October 2016, the Institute for Hydro Meteorological and Seismological of Montenegro had issued an early warning on possible heavy rains in central, south and western parts of the country. This forecast also included the basin of the Albanian river Drim which could further impact the rising of water levels in Skadar Lake.

5.2. On 25 October 2016, due to heavy rain fall in the region of the municipality of Niksic where two artificial lakes are located, critical water levels have been exceeded. To relief the pressure the dams have been opened releasing high quantities of water. All of that and heavy rain are causing floods and flash floods in the basin of rivers of Zeta and Moraca.

5.3. **The following information regarding the victims as of 2 November 2016 was provided by LEMA:**

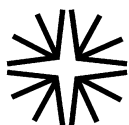

- **Rogami: 8 persons injured, 10 dead persons.**
- **Spuz: 4 persons injured.**
- **Danilovgrad: 27 injured.**
- **Vukovci: 4 persons injured, 1 dead person.**

6. **National response:**

6.1. Directorate for Emergency Management`s (DEM) rescue forces conducted relief operations such as: evacuating people, providing household items and psychological support.

6.2. **Consequence management operations to floods and several transport as well as industrial accidents were managed by national resources with support from international teams.**
