EADRCC REQUEST FOR ASSISTANCE
Forest fires in Sweden

Message Nº. : OPS(EADRCC)(2018)0181
Dtg : 25 July 2018, 22:30 UTC
From: : Euro-Atlantic Disaster Response Coordination Centre
To : Points of Contact for International Disaster Response in NATO and Partner Countries
Precedence : Priority
Originator : Duty Officer EADRCC Tel: +32-475-829-071
Approved by : Team Leader EADRCC
Reference : EAPC(C)D(98)10(Revised)
This report consists of : -2- pages

1. In accordance with the procedures at reference, EADRCC has received today, 25 July 2018, a request for assistance from Sweden. The following information was provided.

2. General Situation
Type of the Disaster : Forest fires
Date and Time the Disaster occurred : July 16th and ongoing
Location of the Disaster : Mainly in the regions of Gävleborg, Dalarna and Jämtland among others, Sweden

3. Current Assessment of the situation.
Over the last few weeks Sweden has experienced atypically high temperatures and close to no rainfall. This has resulted in very dry grounds in woodlands and terrain across the country. The risk of forest fires is extremely high in most of the country, from the south to the north.

Sweden has experienced many forest fires during this period. Currently there are around 40 active forest fires in the country and the number is steadily increasing. The three largest fires alone are covering over 20 000 ha.

The weather conditions are not improving. At the end of this week, temperatures are expected to rise even more and the weather forecast does not indicate much precipitations.
Sweden has already received assistance from a number of countries but the many active large scale forest fires, the high risk situation and scarce national airplane resources, have created the need for additional firefighting airplanes.

4. The following request for international assistance have been identified:
   - Primary request: **water scooping airplanes**
   - Secondary request: any **water bombing airplane** will be taken into consideration

5. Points of Entry: TBD

6. The Operational Point of Contact can be reached in the following ways:

<table>
<thead>
<tr>
<th>Name</th>
<th>Duty Officer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Organization</td>
<td>Swedish Civil Contingencies Agency, MSB</td>
