

EADRCC Consequence Management Field Exercise "SRBIJA 2018"

Jointly Organized by NATO Euro-Atlantic Disaster Response Coordination Centre (EADRCC) and the Ministry of Interior of Serbia

**8th – 11th October 2018
Mladenovac, Serbia**

The consequence management field exercise "SRBIJA 2018" will be conducted from 8th to 11th October 2018 in and around Mladenovac, Serbia. The aim of the exercise is to improve interoperability in international disaster response operations.

The exercise will be jointly conducted by NATO's Euro-Atlantic Disaster Response Coordination Centre (EADRCC) and the Ministry of the Interior of Serbia. This is the 18th EADRCC consequence management field exercise and the first to be hosted by Serbia.

The choice of an earthquake scenario is linked to the type of geological and environmental challenges faced by Serbia.

"SRBIJA 2018" provides an opportunity to strengthen the ability of teams from different nations to work effectively together across a wide range of relief operations.

It is the largest exercise co-organised by the EADRCC and a partner nation since the Centre was created 20 years ago. Around 2000 participants from 40 NATO and partner nations are expected to be involved in "SRBIJA 2018". Contributions to the exercise will consist of emergency response teams as well as exercise planners and evaluators.

UN Office for Coordination of Humanitarian Affairs (OCHA), the European Response Coordination Centre (ERCC) and other International Organisations/bodies will have an active role in the exercise.

Contributions to “SRBIJA 2018”
